

Microsoft Trademark and Brand Disclaimer

Last updated: 8 July 2026

INBIOT PTY LTD ABN 79 696 528 506 (“INBIOT”, “we”, “us” or “our”) provides Microsoft-aligned training, managed cloud lab services, certification readiness support and applied learning programmes.

This page explains how Microsoft names, logos, marks, product names, certification names and related brand references are used on this website and in INBIOT materials.

1. Microsoft trademarks

Microsoft, Azure, Microsoft 365, Microsoft Learn, Microsoft Teams, Microsoft Copilot, GitHub, Power BI, Power Platform, Dynamics 365, Windows, Microsoft Office and other Microsoft product names, service names, logos, icons, badges and brand elements are trademarks or registered trademarks of Microsoft Corporation or its affiliated companies in the United States and/or other countries.

All Microsoft logos, product names, service names, certification names, badges, icons, trademarks and trade marks remain the property of Microsoft Corporation or its affiliated companies.

The names of actual companies and products mentioned on this website may be the trademarks of their respective owners.

2. No ownership claim

INBIOT does not claim ownership of any Microsoft trademark, logo, trade mark, product name, service name, certification name, badge, icon or brand asset.

Any use of Microsoft names or marks by INBIOT is for identification, description, compatibility, training, certification-readiness, programme-alignment or partner-status reference purposes only.

3. Independent provider disclaimer

INBIOT is an independent training and learning-services provider.

References to Microsoft products, Microsoft Learn, Microsoft Azure, Microsoft certifications, Microsoft Applied Skills, Microsoft Official Curriculum, Microsoft badges or Microsoft technologies do not mean that Microsoft has sponsored, endorsed, approved or guaranteed every INBIOT programme, service, website page, statement, outcome or learner result, unless expressly stated in writing by Microsoft.

4. Microsoft partner references

Where INBIOT refers to Microsoft partner status, Microsoft Learning Partner status, Microsoft Training Services Partner status, Microsoft Global Training Partner status, Microsoft for Startups, Microsoft Learn, Microsoft Official Curriculum or similar Microsoft programme participation, such references are made only to describe INBIOT's applicable relationship, authorisation, programme participation or delivery alignment at the relevant time.

Microsoft programme status, partner benefits, courseware access, co-branding rights, certification rules and other Microsoft-related entitlements may change and are subject to Microsoft's applicable terms, policies and programme rules.

5. Microsoft certifications and badges

A Microsoft Certification is awarded only by Microsoft or its authorised certification process after a candidate satisfies the applicable certification requirements.

An INBIOT completion certificate is not a Microsoft Certification.

A Microsoft Learn completion record, Microsoft badge, Microsoft Applied Skills credential or INBIOT course completion certificate should not be represented as equivalent to a Microsoft Certification unless Microsoft expressly defines it as such.

Training completion does not guarantee a Microsoft exam pass, Microsoft Certification, employment, promotion, salary increase, academic credit or professional recognition.

6. Use of Microsoft logos and brand assets

Microsoft logos, icons, product badges, certification badges and other Microsoft brand assets may be used only in accordance with Microsoft's applicable Trademark and Brand Guidelines and any applicable licence, partner programme rules or written permission.

INBIOT does not authorise any learner, client, institution, partner or third party to copy, reuse, modify, redistribute or display Microsoft logos, icons, badges or brand assets from INBIOT materials unless they have their own rights or permission to do so.

Microsoft logos and brand assets must not be altered, distorted, combined with other logos, used as part of another brand, used in a misleading manner, or used in a way that implies Microsoft sponsorship, endorsement or ownership where this is not the case.

7. Course names and certification references

INBIOT may refer to Microsoft course codes, exam codes, certification names or product names, such as Azure Fundamentals, AI Fundamentals, Microsoft 365, Power BI, Microsoft Copilot, Microsoft Learn or similar terms, to identify the subject matter of training or certification-readiness services.

Such references are descriptive and do not transfer any Microsoft intellectual property rights to INBIOT, learners, institutions or clients.

8. Third-party trademarks

All other trademarks, trade marks, logos, product names, company names and service names mentioned on this website or in INBIOT materials are the property of their respective owners.

Use of third-party names or marks does not imply endorsement, sponsorship, approval or affiliation unless expressly stated.

9. Questions or concerns
